So here's the deal with copyright ([thanks Leo for the inspiration](#)). I believe in copyright to the extent you ought not take other peoples' hard work and repackage or alter it for profit if you're asked not to – so that's what I **don't** want you to do. It's lame, so I know you'll be cool.

So pretty much, everything else goes, such as:

- Email it to all your friends; go on, I want you to!
- Post it on forums with links back to VeloNomad.com
- Tell people about it, blog about it, go crazy

And hey, if some of my ideas give you some ideas, and you can make some money from it, then go crazy and good luck to you.
